Projects

AI Mock Interview Platform, Next.js, n8n, ConvexDB Jan 2026 – Present

- Built an **AI-powered mock interview platform** generating structured interview questions from **resume uploads or job descriptions**.
- Designed **AI agent workflows using n8n** to orchestrate decision-based AI logic, avoiding hardcoded prompts and improving output reliability.
- Implemented a **resume upload, parsing, and AI-driven question pipeline** with direct data storage using **ConvexDB**; ensured production-safe test and live workflows.

devConnect, React, Node.js, MongoDB, AWS Jan 2025 – May 2025

- Designed a MERN-stack feed-style experience for developers to connect with other developers.
- Implemented real-time communication using WebSockets for instant chat.
- Deployed the MERN app on AWS EC2 with NGINX and PM2 for production reliability; integrated AWS SES for email notifications.

Campus Innovation Council, React, Node, MongoDB April 2024 – Nov 2025

- Built a **full-stack event management platform** with public and admin roles, managing **20+ events** and **500+ online registrations**, reducing manual effort.
- Developed an **Admin Dashboard** with secure **Node.js/Express REST APIs**, real-time registration tracking, image uploads via **Cloudinary**, and automated Excel exports.
