DevSecCops.AI

About Us

DevSeccOps.ai is a fast-growing technology company specializing in secure and scalable DevOps and software solutions. We integrate **Development, Security, and Operations** to help businesses build and deliver applications faster, safer, and more efficiently. With a focus on cloud-native and modern web solutions, we empower organizations to stay ahead in the digital era.

Job Title: Intern – MERN (Fresher)

Company: DevSeccOps.ai
Location: Kurukshetra

Role Overview

We are looking for a passionate **Intern-Full Stack (MERN) – Fresher** to join our team in Kurukshetra. You will be responsible for developing web applications using the **MERN stack (MongoDB, Express.js, React.js, Node.js)** and collaborating with cross-functional teams to deliver secure, scalable, and user-friendly solutions.

You will work on:

- Designing and building responsive **front-end applications** with React.js.
- Developing **REST APIs** and backend services with Node.js and Express.js.
- Working with **MongoDB** for database design and integration.
- Debugging, testing, and maintaining web applications.
- Collaborating with UI/UX designers and DevOps engineers to improve the product lifecycle.

Requirements

- Strong understanding of **JavaScript (ES6+)** and web fundamentals (HTML5, CSS3).
- Familiarity with **React.js** and front-end development.
- Knowledge of **Node.js, Express.js, and MongoDB**.
- Understanding of **REST APIs** and integration methods.
- Basic knowledge of **Git** and version control.
- Problem-solving mindset and eagerness to learn new technologies.

Why Join Us

- Work on real-world projects with the **latest web technologies**.

- Learn and grow in a **fast-paced startup environment**.
- Be part of a team that values **innovation, security, and scalability**.
